June 21, (evening)

Dear Joe,

I am sending to you these letters - to Tom, Bob, Michael, Patrick - not only to send them, but to reach people and let them start talking to me via E-mail.

Tell Adam, that Legacy is ready to publisize his journal, but we should have a copy about AMERIKA ASAP.

All your requests will be definitely answered (about subscription etc).

Just now I found out that Union of Filmmakers decided to make an experimental films program (and I proposed to them to be connected with Teleport Moscow-San Francisco). Everybody exited. Is it possible to bring a letter of interest from, say, Dick Friesl? considering my proposal being already totally supported? Answer via E-mail.

I ask you to pay special attention to Bob's reaction to my invitation. He will be absolutely in place on the present stage of development of the project.

See you soon.

Tell Michael Klikan and you also that I am waiting all of them.

Pls, send xeroxed copies to all those to whom I write.
